Dr.SHIVA Ayyadurai, MIT PhD. Inventor of Email

@va_shiva

While American politicians - lawyer-lobbyists waste time & money on "impeachment," CHINA 5G is leapfrogging America's decaying infrastructure. By 2025, 1/3 of 1.2 billion users of 5G will be in China. That infrastructure will determine winners/losers of nearly everything.

I disagree. The winners will push this dangerous technology away from their brains. #5G

Dr. Thomas Paul, Therapist #MindBody @DrThomas... · Jul 31, 2018

Firefighters from San Francisco say that they began experiencing an array of unusual side effects— after #5G equipment was installed in and around their firehouses. Symptoms reportedly included memory problems and confusion that stopped when they relocated naturalnews.com/2018-07-31-5g-...

5G has significant health consequences. There are increasing #'s of scientists warning about microwaving the human pop into chronic disease & cancer. Low levels of electromagnetic radiation can cause neurological & biological damage. Who's ensuring this technology is safe?

«Kira Powers» @Earthlingz963 · Dec 16, 2019

It's understood 5G is about bringing AI online to replace human workers & connect everything to "the internet of things". We don't need superfast streaming for movies. We need safe & beneficial technologies that won't displace us. No ones discussing Automation & next steps.
